IRON SOCIALISTS IN FIRST BIG TEST

BERLIN, June 10. (By the Associated Press.)—The national convention of the majority socialist party at Weimar today marks the first meeting of the faction of Philipp Scheidemann, the chancellor, since it became the government party. The session promises to supply the acid test to the integrity of the party in view of the prevailing national crisis and the chronic unrest within the party's ranks.

Notwithstanding the existence of the disaffected elements, the leaders are not afraid of any serious break at Weimar. While none of the insurgents openly threaten to join the independent socialists, they are, nevertheless, giving the independent moral encouragement in their campaign against the government.

Edouard David, minister without portfolio, told the Associated Press that the national political situation should not be sized up through Berlin speculations, adding that "Berlin has always been the recruiting ground for political revolutionaries, professional agitators and dreamers."

CARDINAL GIBBONS GIVES BOY SCOUTS BIG PRAISE

BALTIMORE, June 10.—In connection with the organization in Baltimore of the first Catholic church unit of the Boy Scouts of America, a letter written by Cardinal Gibbons to the Secretary of the Treasury McAdoo is made public in which the cardinal says: "The young boys of the nation are its fathers tomorrow. We as a nation are best prepared when we train them in the right principles of American patriotism. To make them the fit citizens of tomorrow is the sacred obligation that rests upon us all."

"The Catholic church with untiring efforts seeks to train them from their earliest years. Believing in the basis of true citizenship. We welcome with our fellow citizens any agency which, developing this religious spirit, will train youth in the immediate obligations and duties of citizenship. The Boy Scouts, particularly in their splendid labors during the war, have shown how their organization helps toward such a result. It is an organization that does not deny but builds upon the religious faith of the boy member; that exacts of him the faithful observance of all his religious duties."

"Such a movement for the promotion of right citizenship has our hearty approval and we recommend it to the priests and laity of America in answer to the call of the president, the formation of Catholic units of Boy Scouts."
